

BALAJI HARIHARAN N S

balajihariharanns@gmail.com | +91 8754887575
Software Engineer | Full-Stack Developer | Java/Python Developer

CAREER OBJECTIVE

Motivated and detail-oriented Software Engineer seeking an entry-level opportunity to leverage expertise in Java, Python, SQL, MERN Stack (MongoDB, Express.js, React.js, Node.js), RESTful APIs, and JWT Authentication to develop scalable, secure, and high-performance web applications; passionate about full-stack development, database management, cloud platforms (AWS EC2, S3), version control (Git/GitHub), Agile methodologies, and problem-solving to contribute effectively to innovative and growth-driven IT organizations.

EDUCATION

KONGU ENGINEERING COLLEGE, ERODE

Master of Computer Applications.

Present
CGPA: 8.59*

PSG COLLEGE OF ARTS & SCIENCE, COIMBATORE

Bachelor of Information Technology.

2021-2024
CGPA: 8.2

SAMBAVIGA HIGHER SECONDARY SCHOOL, SIVAGANGAI

HSC.

2020-2021
Percentage: 80.91

SAMBAVIGA HIGHER SECONDARY SCHOOL, SIVAGANGAI

SSLC.

2018-2019
Percentage: 77.2

PROJECTS

SMART CONSTRUCTION MATERIALS MANAGEMENT SYSTEM

Developed a scalable MERN-stack e-commerce application for construction materials using MongoDB, Express.js, React (Vite), and Node.js. Implemented JWT-based authentication and role-based access control, creating an admin dashboard with secure RESTful APIs for real-time inventory and order management.

SMART BILLING SALES MANAGEMENT SYSTEM FOR CAFÉS

Built a production-ready MERN-stack POS billing system for cafés using MongoDB, Express.js, React, and Node.js. Added JWT authentication, a real-time sales dashboard, and thermal receipt generation to streamline point-of-sale operations.

RECIPE RETRIEVAL

Developed a personalized recipe recommendation system with React.js, Node.js, and MongoDB. Integrated user-preference filtering and RESTful APIs to provide dynamic, real-time recipe suggestions.

PORTFOLIO

Created a dynamic personal portfolio website using React.js, with responsive design and optimized UI layouts to deliver a seamless browsing experience across devices.

STUDENT MANAGEMENT SYSTEM

Built a Java desktop application using JDBC and MySQL for construction material inventory management. Included role-based login, secure CRUD operations, and an administrative dashboard for efficient resource tracking.

TECHNICAL SKILLS

PROGRAMMING LANGUAGES

- C
- JAVA
- PYTHON
- JAVASCRIPT
- C#
- PHP

WEB & FRAMEWORKS

- HTML • CSS
- React.js • Node.js • Express.js

IDE AND TOOLS

- VScode
- Eclipse
- Git • Github

DATABASE AND PLATFORMS

- SQL • MongoDB
- AWS EC2, S3

ACHIEVEMENTS

GITHUB FOUNDATION

Gained practical knowledge of version control, repository management and collaborative workflows using Git and GitHub.

SOFTWARE TESTING

Trained in manual testing principles, test case design, defect tracking and basic automation concepts.

ADDITIONAL

INFORMATION

- **Languages** - English, Tamil.
- **Soft Skills** - Problem solving, Team collaboration, Time management
